

A Division of Ordnance Technology Service, Inc.

U.S. MANUFACTURED BORE CLEANING SYSTEMS

Advantages of OCS

- Easy semi-automatic depot level cleaning in the field requiring only one operator
- Available in Small Caliber 20mm - 57mm and Large Caliber 76mm - 155mm
- Requires no tools unless changing calibers
- Significantly reduces man-hours
- Operates off compressed air (90-150 PSI)
- Works in both smooth bore and rifled barrels
- Designed to interface with all military platforms
- Supplied with military grade parts & weather-proof case

Driven by compressed air, the OCS expedites the cleaning process and produces superior results in a fraction of the time required by traditional methods.

76 - 155mm Configuration:

- Control Box
- Air Hoses
- Rods
- Cylinder
- Oil Dispenser
- Tool kit
