

Ordnance Cleaning Systems, Inc.

A Division of Ordnance Technology Service, Inc.

Advantages of the OCS

- Easy semi-automatic depot level cleaning in the field by one operator
- Rapid cleaning, 15 - 30 minutes
- Air pressure 90-150 PSI at approximately 7 CFM
- Can be operated inside a very narrow turret
- Small consumption of oil and de-coppering foam (optional)

OCS 155mm Bore Cleaning Kit in plastic case.

OCS 76-155mm Configuration: Control Box, Air Hoses, Rods, Cylinder, Oil Dispenser, and Tool Kit for changing calibers.

The OCS is driven by compressed air and makes cleaning easier and more efficient.
For calibers 20-57mm and 76-155mm.
